Dear Parents/Carers,

As part of the RE, PSHE and Science Curriculum all classes will be teaching lessons about Relationship, Sex and Health Education throughout this academic year. We will continue to follow the 'Life to the Full Plus' programme provided by Ten Ten Resources which has been approved by our diocese.

The lessons will focus on relationships and will adhere to the National Curriculum Science Curriculum and the Diocesan Scheme of work for Relationships, Sex and Health Education. Our policy for RSHE is on our school website.

'Life to the Full Plus' provides a clear and well-rounded programme which enables children to understand they were created in love and how to demonstrate love and forgiveness in their personal relationships. In an ever-changing world, Ten Ten have designed a curriculum to include issues such as body image and positivity, peer pressure and social media influence to reflect the realities which face our children at a younger and younger age. The programme gives children honest information, in an age appropriate context that is fully in line with the teachings of the Church. I am sure that you will agree that these lessons are a very important part of your child's education.

Resources used by the school to teach this programme will be made available each year for parents/carers to view (see below). Parents have the right to withdraw their children from Relationships, Sex and Health Education except for those objectives which are covered as part of Science as outlined by the National Curriculum. Should parents wish to withdraw their children they should notify the school by contacting the Headteacher in writing.

If you wish to find out any more about the lessons covered, you will find a programme of study outlining the lesson content attached to class dojo. You can also log on to the parent portal at the following link <https://www.tentenresources.co.uk/parent-portal/>
